

License Agreement

This machine learning framework for Mathematica(tm) License Agreement ("Agreement") is a legal agreement between you (either an individual or a single entity known as "Customer") and Uni Software Plus GmbH, which holds copyrights of a proprietary computer software and "on-line" or electronic documentation and associated media and printed materials (collectively known as "Machine learning framework for Mathematica" or "Software"). By installing, copying, or otherwise using the Software or any Software Updates, Customer agrees to be bound by the terms of this Agreement. If Customer does not agree to the terms of this Agreement, do not install, copy, or use the Software, including all Software Updates that Customer receives as part of the Software (each, an "Update"). By installing, copying, or otherwise using an Update, Customer agrees to be bound by the additional license terms that accompany such Update. If Customer does not agree to the terms of the additional license terms that accompany the Update, disregard the Update and the additional license terms that accompany the Update. In this event, Customer's rights to use the Software shall continue to be governed by the then-existing Agreement.

License Types.

Single-Machine License:

The Single-Machine License Agreement allows one user to run machine learning framework for Mathematica on a single machine at one time.

Network License:

The Network License is designed to accommodate a network environment. A server program allows a predetermined number of processes to run currently on the network.

Copyright.

Uni Software Plus GmbH is the holder of the copyright to the machine learning framework software (including but not limited to any software components, product documentation and associated media, sample files, extension files, tools and utilities, miscellaneous technical information, and any copies of the Software). The Software is protected by copyright laws and international treaty provisions. Therefore, you must treat the Software like any other copyrighted material, except that Customer may either (i) make copies of the Software solely for backup or archival purposes, provided Customer reproduces and includes Uni Software Plus' copyright and trademark notices contained on the original distribution media on such backup copy, or (ii) transfer the Software to a hard disk, provided Customer keeps the original solely for backup and archival purposes. The Software is licensed, not sold. Customer may not loan, rent, or license the software or the manual.

Mathematica Required.
